

Postgraduate Student Common Rooms

There is a common room on Level 3 of the Research Building which has been furnished by The University of Sydney Union and funds from a postgraduate grant to the Discipline of Paediatrics and Child Health. It is available for all USyd students and has food preparation facilities, lounges and a television. The access code can be obtained from the Postgraduate Research Student Administrative Officer.

The Student Common Room of the Western Clinical School is also accessible to P&CH students. This room is located on Level 1 of the Westmead Hospital beside the Medical Bookshop, providing basic needs such as a kitchenette, vending machines and change rooms fitted with lockers (available for hire). The room also has recreation activities eg table tennis, snooker, air hockey, a TV and video. The adjacent courtyard includes tables and a BBQ. This room also caters as a venue for some of the Postgraduate functions, and generally gives students a retreat from the labs. (Information kindly provided by Western Clinical School).
